Professional Summary

Passionate and driven Full Stack Developer & UI/UX Designer specializing in the **MERN Stack** and **Next.js**. Expert in bridging the gap between graphical design and technical implementation, creating responsive, user-centric digital experiences. Deep expertise in **TypeScript**, **Figma**, and **Shadcn UI** to build scalable solutions. Committed to writing clean, collaborative code and designing architectures that drive innovation in dynamic tech environments.

Technical Skills

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, Shadcn UI, HTML5, CSS3.
Backend: Node.js, Express.js
Design: Figma (Prototyping & Wireframing), Canva, Responsive Web Design, User Flow Analysis
Tools: Git/GitHub, Vercel, VS Code.

Experience

- Techhub Technology

Frontend Developer Intern

Apr 2024 – Sep 2024

Remote

Project: KrishiNavachar.in – Spearheaded the frontend development for the KrishiNavachar platform, taking ownership of both the UI/UX design and code implementation. Designed intuitive user interfaces and translated them into highly responsive web pages using **HTML**, **CSS**, and **JavaScript**. Collaborated closely with the core team to ensure pixel-perfect rendering, optimizing the website structure for cross-browser compatibility and mobile responsiveness to enhance user engagement.
- Techiguru (Partner of Techhub Technology)

UI Designer Intern

Jul 2025 – Aug 2025

Hybrid

Project: Techiguru.in – Contributed to the full-cycle development of the Techiguru educational platform. Created high-fidelity wireframes and modern UI layouts using **Figma** to establish a consistent design language. Transitioned into development by implementing these designs using **React.js** and **TypeScript**, building reusable and modular components that significantly improved the application’s maintainability and scalability.
- IBM Developer Skills Network

IoT Virtual Internship

Aug 2025

Virtual

Project: Smart Home Automation – Successfully completed the Project-Based Experiential Learning (PBEL) program focused on the Internet of Things (IoT). Designed and simulated a comprehensive **Smart Home Automation** system, applying practical logic for device interconnectivity. Leveraged the IBM Skills Network ecosystem to gain hands-on experience in IoT architecture, data flow, and sensor integration, ensuring a robust prototype demonstration.

Key Projects

- SyntaxSpace | MERN Stack, TypeScript, Shadcn UI, Figma

2025

Architected a specialized social media ecosystem tailored for developers to post code snippets and build professional connections. Designed the complete UI/UX in **Figma** and engineered a type-safe, responsive frontend using **React.js**, **TypeScript**, and **Shadcn UI**. The platform features a modern, dark-themed interface with optimized component rendering, ensuring a seamless experience for technical users.
- Livia WebApp | React.js, Tailwind CSS, Responsive Design

2025

Developed a high-performance standalone web application to showcase advanced frontend capabilities. Utilized **React.js** and **Tailwind CSS** to create a pixel-perfect, fully responsive interface that adapts smoothly across devices. Focused on code modularity and state management to ensure a fluid user experience, serving as a robust demonstration of modern frontend architecture standards.
- E-Garments Shopping Site | React.js, CSS Modules, Figma

2025

Designed and built a dynamic e-commerce frontend interface focusing on intuitive navigation. Created the initial prototypes in **Figma** and translated them into code using **React.js**. Implemented features like product grids, interactive carts, and theme toggling (Dark/Light mode), optimizing the DOM structure for fast rendering and high-performance user interactions on mobile and desktop.

Education

- Moradabad Institute of Technology

B.Tech in Computer Science & Engineering (CGPA: 7.2/10)

2022 – 2026

Moradabad, UP
- UP Board

Intermediate (XII) – (Percentage: 75.8%)

2022

Moradabad, UP

Achievements

Robotics Winner: Secured 1st Position in RoboRace and RoboWar (MIT 2024); 2nd Position in Zonal RoboWar (Bareilly).
Certifications: NPTEL Internet of Things, Database Management Systems, Cisco Python Essentials.
